Manufacturer and Importer. Sufferer, Joy.

This Volcanic Oil, which is the beais of the Liniment, is procured from the bowels of the earth; placed there by All-Wise Providence as a great healing agent for the use and benefit of mankind, and by them to be applied to the useful domestic animals placed under their charge, and which become liable to diseases and accidents from their domestication. It is to be found in various parts of the globe, wherever volcanic or burning mountains have ceased to exist, but which may easily be known from the desolation and destruction which surround them. Along the base of, the Sierra Nevada Mountains, near Salt Lake or Mormon City, it can be seen pouring forth from the clefts of those immense piles of rocks, shattered by volcanic eruptions. Many persons who have traveled by land to California, may have observed an oily substance floating on the surface of springs. Pools and Lakes; while in other places, the water would appear clear, but upon stirring it, (the ground being staturated with this oil,) the surface became black in colour and greasy as far. Had the virtues of this Oil been known, many a bold pioner would have been relieved from the anguish of lacerated limbs and sprained joints, attendant upon crossing those rogged and rocky mountains.

This Volcanic Oil, upon chomical analysis, is found to be composed of several powerful ingredients, one of which is naptha, well known to chemists and phyricans as one of the chief corner stones of the great life-saving edifice which science in daily bringing to completing. This, when combined with some of the most southers, form a Liniment far more valuable and superior to anything that ever has been discovered or officered to suffering humanity.
